

INFRASTRUCTURE CATALOG 2021-22

CalFoods Logistics is here to support you and your efforts within your community. In addition to providing your community with nutritional support on behalf of the state, we are thrilled to extend additional infrastructure support to you and your food bank.

We understand that budgets can be constrained, and through our exciting satellite relations programs, we can further support you and your food bank infrastructure needs.

Think about what your needs are and what critical infrastructure items will help you run a successful food bank.

Browse the catalog, place your request for infrastructure items; once approved, we can provide you with the extra support that you need.

Here are just a few ideas of how we can support you and your mission. This catalog may not be inclusive of all possible infrastructure items so contact us about your needs. We will always do our best to provide new or nearly new high-quality equipment.

In Community Spirit!

Steve Linkhart, CEO

CalFoods Logistics
